

# COVID-19: Plan B Business Restrictions Webinar

## Question and Answer Session

### Where can I collect test kits from?

Supervised in-pharmacy testing is available for free at participating pharmacies around Wolverhampton. There is no need to book, tests are quick and easy, and the results are automatically sent to you.

For more information about in-pharmacy testing, and for a list of participating pharmacies, please visit [Pharmacy Testing](#). Additionally, free rapid tests can be booked in advance at any of the listed pharmacies at [1centralhealth.co.uk/wolveslft](http://1centralhealth.co.uk/wolveslft).

You can still use the government website to order one box of home rapid lateral flow tests to be delivered to your address. You may also be able to pick up rapid lateral flow tests from a pharmacy or collection point, where these are available. For more information regarding collection points, please click [here](#). In England, you can get a collect code to pick up tests from a pharmacy by clicking [here](#).

For further help with testing, please contact Public Health via [Public.Health@wolverhampton.gov.uk](mailto:Public.Health@wolverhampton.gov.uk) for more information.

### One of my staff members has recently had COVID how soon after can they receive their vaccination?

If you have tested positive for Covid, you should wait four weeks (28 days) from the date of the test before you receive your vaccination.

### My venue doesn't have a dancefloor but people do tend to dance in the venue. How do I stand legally with regards to the COVID pass?

You would legally have to implement the COVID Pass as the regulations state that the NHS COVID Pass is required as a condition of entry if a venue has a dancefloor or designated space for dancing.

### I'm a nightclub – Do I need to carry out checks from 1am onwards, or am I required to check these as I open?

Nightclubs, discotheques, and dancehalls are required to undertake 100% checks at all time, regardless of opening times.

### If my premises are exempt, would you advise us to use the COVID pass status checks as a means of safe entry?

We appreciate that this may be challenging to implement. If you are looking to introduce COVID pass status checks on a voluntary basis, please get in contact with us via [CovidBusinessSupport@wolverhampton.gov.uk](mailto:CovidBusinessSupport@wolverhampton.gov.uk) and we will offer our support in helping you achieve this.
